To whom it my concern:

My name is Elzbieta Kunat My son David Kunat was an owner of Byte Networking LLC, internet service provider. He passed away in a tragic plane crash on May 27 2017. Myself and my husband Janusz Kunat, we took over running his business as his personal representatives.

Because of death so sudden we were faced with lots of complex issues mainly making sure that all his customers will be taken care of without interruptions, while at this same time coping with unthinkable loss.

I was assured by David's girlfriend that she knows how to submit the USAC invoices and we allowed her to do this not realizing that she had no idea how to use the USAC system. Recently we noticed that we have many payments to AT&T, ACS and GSI, but hardly any money coming in. I started checking and upon calling USAC I found out that there is many invoices that were not received and that some of them are commitment from 2016 funding year.

Last week I submitted invoices for each FRN and each application number that had 2016 commitment left. I was told today that there will be no payments made. (Funding reimbursement applications were denied due to outside 120 days window of last bill invoiced.)

We would like to appeal that decision and ask for an extension that would allow us to resubmit the invoices and receive reimbursement for the service we provided.

The company name is Byte Networking LLC

Spin number 143048431

Below are the Invoice numbers that were denied as well as application numbers of the USAC clients that there is 2016 commitment due. Thank you, I hope that you can help us and get back with me soon.

Best regards, 161030358.

Elzbieta Kunat

My phone number is 907-209-2412

The Invoices numbers that were denied by USAC

Are 2733194, 2733080, 2733084, 2733096, 2737650
